THEFT PROTECTION

YOU CAN'T AFFORD TO OVERLOOK THE POSSIBILITY OF THEFT.

Interstate National's Theft Protection System permanently marks the vehicle's body parts *or* "etches" the vehicle's windows with identification numbers that can be scanned by law enforcement officials to trace the vehicle's ownership.

Your vehicle is a major investment, so the last thing you want to think about is having your vehicle stolen. However, the unsettling fact is that approximately two vehicles are stolen every minute in the United States, and today's car owner simply cannot afford to ignore the possibility. Unfortunately, your insurance will not cover all of the costs associated with a loss due to the theft.

The following are the typical out-of-pocket expenses not covered by your insurance company:

1. Replacement Vehicle Costs (down payment, sales tax and miscellaneous fees)		\$1,000 – \$2,000*
2. Deductibles	+	\$250 – \$1,000*
3. Payoff Deficiencies	+	\$1,000 – \$2,000*
Total out-of-pocket costs		\$2,250 – \$5,000*

**Approximate costs, your actual costs may vary.*

Theft protection programs help prevent vehicle theft and aid with recovery in the event a theft does occur. More importantly, the program assists in the financial trauma resulting from theft.

Interstate National's Theft Protection System provides layers of protection.

- ★ Traceable identification codes permanently mark your vehicle, making it less desirable to professional thieves.
- ★ Distinctive anti-theft warning decals provide an additional level of deterrence.
- ★ Tracking codes are placed in a database, which is accessible by law enforcement offices.
- ★ A Limited Guarantee Benefit of up to \$5,000* gives you additional peace of mind.

**Depending on availability.*

The latest technology.

One of the most effective theft deterrent systems available on the market today, the Theft Protection System permanently marks your vehicle's body parts or "etches" your vehicle's windows with identification numbers that cannot be bypassed or removed. The codes, which are registered with law enforcement officials, make vehicles undesirable to "chop shops."
