What to do in the Event of a Failure

1. Prevent Further Damage - **You** should use all reasonable means and precautions to protect **Your Craft** from further damage. This **Contract** will not cover damage caused by not securing a timely repair of the failed component.
2. If **Your Craft** breaks down, return to the Issuing Dealer during normal service department hours. If this is not possible, take **Your Craft** to the licensed repair facility of your choice (You may contact the **Administrator** for assistance in locating a repair facility).
3. Instruct the repair facility that they must obtain an authorization number from the **Administrator** prior to proceeding with repairs. The amount so authorized is the maximum that will be paid. Any additional amounts need prior approval.
4. In some cases, **You** may be required to authorize the repair facility to inspect or tear down **Your Craft** to determine the cause and cost of the repair. **You** will be responsible for these charges if the **Failure** is not covered by this **Contract**. We reserve the right to require an inspection of **Your Craft** prior to any repair being performed.

Service Department Guidelines for Claims Handling

Follow these steps when handling a claim:

1. Advise the **Contract** holder that evaluation of a **Failure** does not mean that the repair is covered under this **Contract**. All covered repairs must receive prior authorization from the **Administrator**.
2. Have the **Contract** holder authorize the inspection/tear down of the **Craft** to determine the cause of the **Failure** and the cost to repair. Save all components, including fluids and filters, should the **Administrator** require an outside inspection. Notify the **Contract** Holder that the cost of tear down will not be paid if it is determined that the **Failure** is not covered under this **Contract**.
3. Determine the cause of **Failure**, correction required and cost of the repairs.
4. Contact the **Administrator's** Claims Advisor at **1-800-526-0929** to get authorization to proceed with the claim. Be prepared with the following when placing the call:
 - a. Customer's Name and **Contract** Number.
 - b. Cause of **Failure** and recommended correction.
 - c. Cost of repair.
5. The Claims Advisor will verify coverage and do one of the following:
 - a. Approve Claim - If approved, the repair facility will be given an authorization number to be recorded on the repair order. The authorized amount is the maximum that will be paid. Additional amounts must receive prior approval.
 - b. Require Additional Evaluation, Inspection or Tear Down – The **Administrator** may require an inspection prior to the repair being completed. If a tear down is required to determine the cause of **Failure**, the **Contract** holder must authorize same. Notify the **Contract** holder that if the repair is not covered, then the **Contract** holder will be responsible for cost of the tear down. The repair facility should save all components requiring inspection, including fluids and filters. The Claims Advisor will arrange for the inspection. If the inspection is not made within forty-eight (48) hours, contact the Claims Advisor.
 - c. Deny the claim and provide the reason for the denial.

6. Review the **Administrator's** findings with the Contract holder as well as what will be covered by the Contract and what portion of the repairs, if any, will not be covered.
7. Obtain the **Contract** holder's authorization to complete the repairs. All repair orders must have the **Contract** holder's signature to qualify for payment.
8. Submit the repair order(s) which should contain the **Contract** number, authorization number and authorized amount to the **Administrator** within thirty (30) days at the following address:
